

COMPARING SPIDER AND INSECT BODIES

DIRECTIONS: Paste the names of body parts on the diagram. Spider parts go in the spider circle. Insect parts go in the insect circle. Body parts that both have go in the overlapping section. Students can also write the words.

BODY PARTS

DIRECTIONS: Cut and paste the names of these body parts on the Venn diagram. Which parts belong only to a spider? Which parts belong only to an insect? Which parts do both have?

spinnerets	wings
eyes	antennae
legs	fangs
mouth	proboscis
abdomen	cephalothorax
